CSE Undergrad | Intern at Vanillakart | Data Science | Machine Learning

**Address:** Bengaluru, Karnataka, India

**LinkedIn:** <https://www.linkedin.com/in/chinmay-r-b82b86250/>

- Hello world! I am a second-year computer science engineering student with a passion for AI, ML, data science, programming, and telecommunications. I thrive on tackling complex problems and exploring innovative solutions in these fields.
- ♀ When I'm not coding or studying, you can often find me engrossed in a game of chess, sharpening my strategic thinking and decision-making skills.
- As a blockchain enthusiast, I am fascinated by its potential to revolutionize industries and create secure, transparent systems. I am constantly exploring new developments and possibilities in this exciting technology.
- Additionally, I have a keen interest in web designing, where I combine my creativity with technical skills to craft visually appealing and user-friendly websites.
- I am doing an internship at Venillakart, where I am gaining valuable experience in Web Designing and Blockchain Development. This opportunity allowed me to further develop my skills and expand my professional network.
